15. Effective 1 December 1957 the Chief of Station authorized the extension of the benefits permitted [] to all eligible employees at the [] Station, with the limitation that reimbursements were not to exceed an individual's maximum quarters allowance by an amount greater than 25 percent. A test check was made of the unit costs as compared with the occupants maximum allowance as established by the [] Station. All items checked were within the specified limitations. An examination of the housing records disclosed that all Foreign Real Property Reports, Form 360, have been executed and forwarded to Headquarters. A review of leases indicated that all but two contained a 30 or 60 day cancellation clause; however, the two leases with no cancellation clause had less than 90 days before they expired.
